Clarification on History Notes:
Delete the first paragraph that is irrelevant

Narrowed down to three sub page:
- History
- Lifestyle/Community
- Culture and Social Impact

Mood
- The mood will be more playful, rather than a serious tone to focus on

Troubleshooting
- Maybe there is not enough relevant information on each subpage to make everything tie together
- If needed, vehicle modification can be added into lifestyle/community, and legality can be added into History.
- At the end there could be a call to action for the housing crisis in the U.S

Visual Language
- Orange, blue, granola color schemes
- Can be more cartoonish, like a YMCA kind of vibe

Typography chose
- More playful
- San-serif
